**Subject:** Fond du Lac request for meeting with the USACE re PolyMet wetland delineation

Col. Calkins:

The Fond du Lac Band is requesting, once again, to meet with the US Army Corps of Engineers regarding the concerns we raised with the Corps last August about potentially inaccurate and incomplete accounting of wetland impacts from the proposed PolyMet NorthMet project. It has been disappointing, to say the least, that the Corps has been so silent and nonresponsive to earlier requests from staff and the tribal chairman. We have had to review and prepare comments on multiple related draft permits for the project without the benefit of certainty in the scale of wetland impacts, and having recently learned that work has been ongoing on this matter, we urgently request a meeting to hear from you about that work and the Corps' review of it.
